

Dental Emergencies

If you have a dental emergency during practice hours, please telephone as early as possible to give us time to see and treat you. If you have a dental emergency outside of practice hours please telephone the practice for advice. Whilst our members will always be given priority we will endeavour to offer emergency appointments to non-members.

Appointments

Please respect our appointment system and give us at least 24 hours notice if you are unable to attend – failure to do so may result in a charge.

Opening Hours

Monday – Friday
9am – 5pm

Payment

You can pay by cash, debit/credit card or by cheque (with guarantee card). We also have a low cost monthly payment scheme, Vitality Dental Plan, which offers members a host of additional benefits including 0% finance and world-wide dental insurance. Our team will guide you through the options available at your first visit.

Disabled Access

The practice has disabled access and a ground floor surgery. If you have any special requirements please let us know, we will do our best to help.

Parking

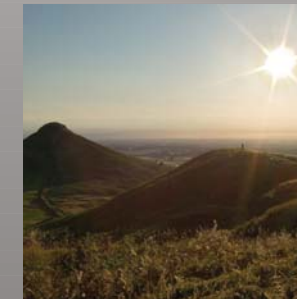

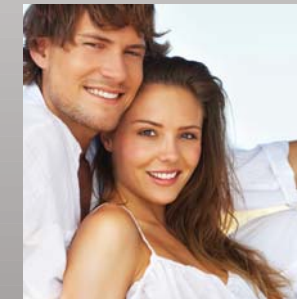

There is ample parking space on Stokesley High Street.

Vitality

COMPLETE DENTAL CARE

Welcome to...
Vitality Dental Practice

The practice is dedicated to providing complete, quality dental care in a stylish, modern and relaxed environment.

Vitality is owned by husband and wife team, Ian and Jayne Gordon, both well known dentists in the local area. They wanted to create a practice that patients would enjoy coming to with treatments that are at the cutting edge of modern dentistry.

At Vitality we take the time to get to know you and find out what you would really like in terms of your dental care. As a valued patient of our practice, we are sure you will notice a difference!

The practice boasts two contemporary waiting rooms; a quiet room with refreshments and a media room with television, internet access and a PlayStation, as well as two highly equipped surgeries.

Our Team

Ian Gordon

BDS Newcastle 1984, MFGDP

Jayne Gordon

BDS Newcastle 1991, MFGDP

The dental team are supported by our Hygienist, Practice Manager, dental nurses and reception staff. All are fully qualified and committed to excellence in dentistry and patient care.

Smile Enhancement

From one tooth to a full smile makeover, Vitality can help you achieve the smile you have always wanted.

Crowns & Bridges

Unightly teeth can be covered with crowns and spaces between teeth can be filled using bridges. Advances in ceramic technology allow these teeth to appear more natural and black lines around gum margins are less likely to occur.

Veneers

Veneers provide a wafer thin covering to hide discolouration on teeth and close unsightly gaps with little work being needed on the tooth itself.

Natural Coloured Fillings

Unightly metal fillings can be replaced by natural coloured fillings to improve the look of your smile.

Tooth Whitening

This is a highly effective procedure to lighten the colour of natural teeth. We offer in-house power whitening or trays for home use.

Orthodontics (tooth straightening)

As well as traditional braces, we also offer Invisalign® 'invisible' braces. These braces are virtually unnoticeable when worn and the results are amazing!

Dentures

We offer a full range of denture options to help achieve the most natural results.

Dental Implants

Dental implants are a permanent, natural replacement for missing teeth or dentures. They can look, feel and be as robust as your natural teeth.

If you are concerned about any aspect of your smile or would like to learn more about any of the techniques mentioned above, talk to any member of our team.

Facial Aesthetics

Wrinkle relaxing and dermal fillers can help to reduce the signs of ageing and improve facial appearance. The results are a younger, fresher you.

Wrinkle Relaxing

A highly effective treatment predominantly for the softening and smoothing of expression lines i.e. frown lines, forehead lines and crows feet.

Dermal Fillers

An instant, safe way to smooth out lines, restore volume and give you back the confidence of a younger you, with incredible, immediate results.

Please ask a member of our team for further details

Hygiene Services

Our hygienist works closely with the dentist to prevent and treat gum disease. There is now increasing evidence linking gum disease with heart disease and strokes. It is also the main reason for loss of teeth and we take the treatment of gum disease very seriously.

Our dental hygienist can:

- Remove calculus (tartar) from teeth by scaling and polishing
- Treat gum disease (also known as 'gingivitis' or 'periodontal disease')
- Teach good oral hygiene techniques to maintain healthy gums

We also stock a range of oral health products at the practice for your convenience.
